OBJECTIVE

Intern/Fresher is looking for opportunities to apply the knowledge and skills learned about software technology to work. Proactive and willing to learn new technologies and trends to improve yourself and become an important element of the organization. Contribute positive value to the organization through creativity and effective problem-solving. In the short term, I hope to secure a long-term position in the company, and my long-term goal is to become a full-stack developer in the next three years.
